# What is Aumatrix

Aumatrix is not old, its ancient. It was first created in Lemuria and was known as the symbol that attracts miracles. After centuries it has come to light again, to bless the wearer by activating 5 profound areas of their life. The five codes are not just words, they are a complete manifestation prayer in itself.

**LUMAS – The Wealth Code**

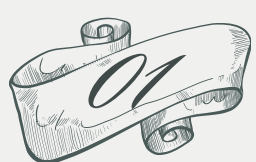

**UNIRA – The Relationship Code**

**MIRIM – The Health Code**

**ARINU – The Purpose Code**

**SAMUL – The Divine Code**

Together, these codes form a living field of light that rewrites the destiny of the wearer. It does not wait - it begins the moment you receive it. When you hold the Aumatrix, you hold the greatest ancient power ever given to humanity.

# The Forgotten History of Aumatrix

The Aumatrix is ancient, but it was hidden from the world for centuries. In the old civilization of Lemuria, beings called Vault-Keepers protected it. They sealed Aumatrix into these five light codes when human consciousness dropped too low to handle its power.

## They left a message:

“When Earth forgets itself, it must sleep. But when Earth begins to ache, it must awaken.” Today, the Earth is aching-and the Aumatrix has returned.

It didn't survive time; it outsmarted it. Now, it rises again, not as jewelry, but as a living turning point for souls ready to awaken.

## Why You

Because the moment your eyes fell on Aumatrix, your soul remembered it. It does not come by chance-it chooses you when you are ready to release old patterns and step into your real self.
